Abstract:
A case study (also known as a case report) is an intensive analysis of an individual unit (e.g., a person, group, or event) stressing developmental factors in relation to context. The case study is common in social sciences and life sciences. Case studies may be descriptive or explanatory. The latter type is used to explore causation in order to find underlying principles. They may be prospective (in which criteria are established and cases fitting the criteria are included as they become available) or retrospective (in which criteria are established for selecting cases from historical records for inclusion in the study). In this study the researchers studied about an Arjuna Award Winner Parul Parmar an Arjuna Award Winner Parul Parmar.

Keywords: Arjuna Award, Case, Case Study

1. Introduction
In this modern age, man has been achieving great progress along with new researcher. The world is being transformed very fast. Every man is eager to knock the doors of the 21st century standard of life is getting change. Ideology is also changed. This change is found in every walk of life. In this fast changing world, man is the only creature that possesses ability to accumulate experience and hard them over to generation and generation. That is why man is considered to be the most intellectual and rational animal of all.

Research is a unique science. Research is required to solve the problems coming in the development of educational field and for the overall developmental of man. In this age of science, scientific, process of research has been more credible to try, various researchers have planed significant role to transform the field of education.

A man takes up research work in order to find out solution of the problem or to suggest its remedies. Man possesses a special lactic for research. The researcher becomes the representative of the entire man land.

He draws his conclusions based on it. For the study of the topic, the researcher was various questionnaires, opinions, collection of information, personal visit, self observation etc as his tools for research. He selects his sample characters from his family members, friends, schools, occupations, and social institutes. It has been known through researcher that every man there to
get adjusted to different circumstances. Man makes efforts to get adjusted to the surrounding environment. In order to know aspects of man “Case Study” is an utmost importance. In this age of science, the role of speed with which games are being developed the player needs a special coaching to establish his success in national and international competitions. Coaching is given by the coaches. A coach is such a person who gives coaching and training to the player according to his own experience and experience in order to fulfill their objectives.

In order to make best player, the Indian government declared “Arjuna” award for the player to honor their work in 1961. Similarly Gujarat state has declared “Aklavya” award, “Sardar Patel” award And “Jaydeepsinhji Baria” award to encourage the players. Thus the achievements of the players are honored by the Indian government and the state government which is a positive sign for the world of sports and games.

Indian government has started to honor the players of national and international level by conferring of them the always of high ranks. In this award, the player received Rs.3, 00,000/- cash along with idol of “Arjuna” made of bronze. This honor is conferred by the president of India on Delhi. This tradition has been started with a view to getting excellent players in every game. Till now many sincere payers have been honored. Here, therefore player on whom the study is intended are “Arjuna” award winners.
