

Changeover in vision: A vital requirement for enrichment of women.

MAMTA. L. PRAJAPATI

Lecturer, civil engineering department, T.F.G.Polytechnic, Adipur, kutch 370205

Abstract: *Changeover in vision means treating women as equal as men in society and this can only be achieved when an individual person residing have humanity, honesty and respect for women from bottom of his/her inner soul, with achievement in change in vision of society at very next moment no requirement for women enrichment will be notify anymore. In today's modern arena more focus is given on women literacy, women empowerment, women health issues and others but in actual more emphasis should be given to crimes encounter against women which can only be minimized by giving punishment to accused person in real manner- in short time within the crimes noted against women and no relaxation should be given for age or any as the crime is caused by the brain and not the age. Compare to past years women enthusiasm for society in any field have increased but not in proper manner as we all know that the crimes encounter against women are increasing day by day is the cause of failure of growth of women super power.*

Keywords: arena, accused, enrichment, enthusiasm

Introduction:

Day by day the scenario of our society is changing with development in enrichment of women super power in society. Today if we study thoroughly in any sector we will find that women are in leading role and their performance is adorable like in business sector women at high post are more likely to take powerful decisions compare to men as well they are more likely to work in any unfavorable condition and with more enthusiasm as per research conducted.

Discussion

For growth of women empowerment in society, government are arising many of scheme for them like free transport for girls student in rural area, free schooling having only one girl child, etc. of course overall development is also noticed but at some the real growth is suppressing by the unsafe environment in society for women. At each and every step there is fear surrounding them. They themselves don't feel safe at any work place. And this is the reason why the enrichment of women is not taking place in a proper manner. The family members are more concern with their safety compare to their independence. The women who are not scared by the unsafe society have achieved a great lime time and are awarded by the Ministry of Women and Child Development for crushing stereotypes and becoming super hero into their own in fields and have become role model our country like **Kiran Bedi** (First woman to join the Indian Police Service), **Manju Yadav** (First women coolie), **Avani Chaturvedi, Bhawana Kanth And Mohana Singh** (First women in air force), **Ira Singhal** (First differently-abled woman to top the civil services), **Punita Arora** (First woman to become lieutenant general), **Priya Jhingan**(First woman cadet to join the Indian Army), **Radhika Menon**(First female merchant navy captain:) **Harshini Kanhekar**(First Woman Firefighter), and many others but if we see the real hindrance to women enrichment is the crime encounter against women because the crime ruin victim life as well their family becomes socially inactive which is the big loss to our society. This is happening because India is men dominating country where women are not getting same right as men which we all know very well and this is the reason of inequality in vision.

The cases recorded against women are increasing day by day and real record off the paper is more painful. Real fact is the vulnerable condition of victim, my words can't justify the real pain but from victim point of view if the punishment is given to the accused person in real manner, victim can come over from the depression. In our country the cases are pending for years and in this condition the victims and their family suffers from mentally torture for every second which reflects suppression of women growth in society.

Conclusion

From all above discussion we can conclude that if changeover in vision is achieved, women empowerment will grow in super natural manner. As the safety is established others criteria for enrichment of super women scenario will be directly achieved. With achievement in women enrichment in our country, our nation will have more proud to be an Indian. As we know in family if mother is literate than a whole family is literated.
